The 2026 RISP International Workshop on Nonlinear Circuits, Communications and Signal Processing (NCSP'26) will be held at Hilton Waikiki Beach Hotel, Honolulu, Hawaii, U.S.A., February 27 to March 2, 2026. The workshop is open to researchers from all over the world. In particular, the organizing committee encourages students to present their preliminary results that are not necessarily ready for publications in technical journals. Papers describing original works in all aspects of Nonlinear Circuits, Communications and Signal Processing are invited. Topics include, but are not limited to:

Nonlinear Circuits and Systems

- Bifurcation and Chaos
- Circuits and Systems
- Complex Networks & Systems
- Control and Fuzzy Systems
- Evolutionary Computation

Communications

- Communication & Information System Security
- Communication Networks
- IoT & Sensor Networks
- Optical Communications
- Wireless Communications

Signal Processing

- Artificial Intelligence and Machine Learning
- Signal Processing for Communications
- Image & Video Signal Processing
- Speech & Language Processing
- Biomedical Signal Processing

Important Information

NCSP'26 will be held with online and in-person sessions separately.

- Date of Online Session: February 27, 2026
- Date of In-Person Session: February 28, 2026 to March 2, 2026

Conference proceedings will be issued by February 26, 2026.

Student Paper Award

The technical committee will present the student paper awards. The award candidates are required to submit a 4-page camera-ready manuscript by the camera-ready deadline.

Paper Submission Information

Authors are invited to submit 1-page summaries through the workshop website:

<https://ncsp.jp/NCSP26/>

After the acceptance, authors will be required to submit the final paper (4-pages are required) for the workshop proceedings.

Important Dates
